Date: December 3, 1997

Daniel Mechanical, Inc.
2185 East 7th St.
Los Angeles, Ca 90023

Attn: Tim Malki

Ref: Odor Control Systems

To Whom it may concern:

Carollo engineers have reviewed the references for odor control systems by Daniel Mechanical, Inc. Carollo believes that the odor control systems provided by Daniel Mechanical are of excellent qualities and therefore would specify Daniel Mechanical in Carollo's standard specifications. Carollo has received shop drawings from Daniel Mechanical on other Carollo jobs, and we are satisfied with their products.

Be advised for the time being Carollo considers Daniel Mechanical, Inc. and RJ Environmental the only two acceptable manufacturers of odor control systems for wastewater treatment projects.

Should you have any questions, contact Khalil Kairouz at Carollo Engineers (714)540-4300.

Khalil Kairouz
Project Engineer
