RE: GVWWTF BNROD & Upgrade Project

Mr. Malki,

This letter is written at the request of Reneé with your company. She asked that I pen a letter regarding Hunter Contracting's view of Daniel Mechanical as it pertains to the GVWWTF Project. It is my pleasure to inform you that it is my opinion that Daniel Mechanical has provided to this project in an atypical manner. Daniel Mechanical has only performed in their function as a supplier to this project with professional deportment. From the time that Daniel Mechanical was contacted as a possible supplier until the FRP ductwork was installed, Daniel Mechanical has provided all necessary items in a timely and efficient manner: they have worked well with our field office, staff and field personnel to the successful completion of their phase of this project.

Sincerely,

Mark Helin
Project Engineer
