Attn: Mr. Tim Malki

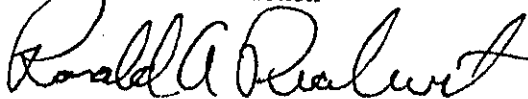

RE: Letter of Reference  
Document Number 2367  
Calera Creek Water Recycling Plant - WPC Project 9698

Dear Mr. Malki,

This letter is in reference to Daniel Mechanical's performance in the fabrication of the fiberglass ductwork and all the associated hardware for the subject project. Although the fiberglass ductwork proved to be an extremely complicated system, the fabrication quality furnished by Daniel Mechanical was excellent. In addition, it was encouraging that Walsh Pacific and Daniel Mechanical were able to negotiate some simple resolutions to complex problems. We look forward to doing business together on future projects.

Please contact us if you have any questions or comments.

Sincerely,  
Walsh Pacific Construction

Ronald Probert  
Project Manager
